

# Heads Up! Equipping Students for What's Next

An interactive and fun "career minded" workshop for **students in grades 7-9** (ages 11 to 15) ready to begin planning for high school, college, and beyond.

**4 hour workshop - 2 hours on 2 different days**

## **Topics covered will include:**

- ⇒ **Planning for high school** and tips for success
- ⇒ **Self assessment** – tracking strengths, values, traits and preferences
- ⇒ **Career investigation** – how tie personal traits to real jobs
- ⇒ Tools – how to research and **learn about potentially interesting careers**

**Value of attending:** Students invest time in **thinking about the future** - Gain new insights **parents can build upon** - Final hour of **families brainstorming together**

## **Kind Words about Heads Up...**

*"At The Core was a wonderful experience for my 8th grade twins. They attended the two day Heads Up workshops and for the first time, were able to self-identify their strengths, their areas of passion and understand how important these things are while planning a high school and college career." --J.C. (parent), Powell, OH*

*I will remember "...how you made us discover who we were. I thought it was funny and useful."  
--Student, Powell, OH*

*"This will help me in my career path and distinguishing possible career choices and eliminating others."  
--Student, Powell, OH*
